

## CHICAGOANS DIE AS YACHT BURNS IN GEORGIAN BAY

W. L. Hodgkins Drowns; Guests Swim Ashore.

(Pictures on back page.)

William Lewis Hodgkins, wealthy Chicagoan, and two members of his crew of the speed yacht Playboy, were drowned on Wednesday night in Georgian bay near Little Current, Ont., when the boat became suddenly engulfed in flames.

Two young Chicago girls, Miss Winifred Smith, daughter of Mr. and Mrs. Walter B. Smith, and Miss Emily Otis, daughter of Mr. and Mrs. Joseph E. Otis, escaped by swimming about a mile to Mary Island with two members of the crew.

Mr. Hodgkins succeeded his father, the late Col. Jefferson Hodgkins, five years ago as head of the Brownell Improvement company, contractors for the building of public structures. Miss Otis' father is head of the Central Trust company, and Miss Smith's father is an official of the Northern Trust company.

**Calls for Camp Guests.**  
Shortly before the accident Mr. Hodgkins had started from the village of Little Current for his summer camp at McGregor bay. He had taken the ship aboard the yacht at Cutler for a visit to his camp where his wife, Mrs. Mae Press Hodgkins, and his son, William Press Hodgkins, 21 years old, awaited him.

A dozen other members of the McGregor bay summer colony had embarked earlier on a chartered boat for the camp and were some distance ahead of the Playboy at the time of the accident, dispatches from Little Current indicated.

With Mr. Hodgkins at the steering wheel the engine of the Playboy backed and in a moment the hull was in flames. A leak in the gas tank is believed responsible for the almost instantaneous spread of the fire.

**Helps to Save Others.**  
Mr. Hodgkins, the survivors declared, shouted for all to leap overboard, he remaining on the craft until the last moment to toss overboard to the other seat cushions and other objects to aid in the long swim ashore. Although a good swimmer, Mr. Hodgkins, when he finally leaped in, was too fatigued to withstand the frigid temperature of the water.

Thomas Fleishman of Chicago, a deckhand, and James Rush, a mechanic, of Little Current, were the two others to perish. Edgar Crasnow, coach, of Chicago, and Edward Brolet, a guide, of Little Current, swam to La Cloche island by clinging to the floating cushions.

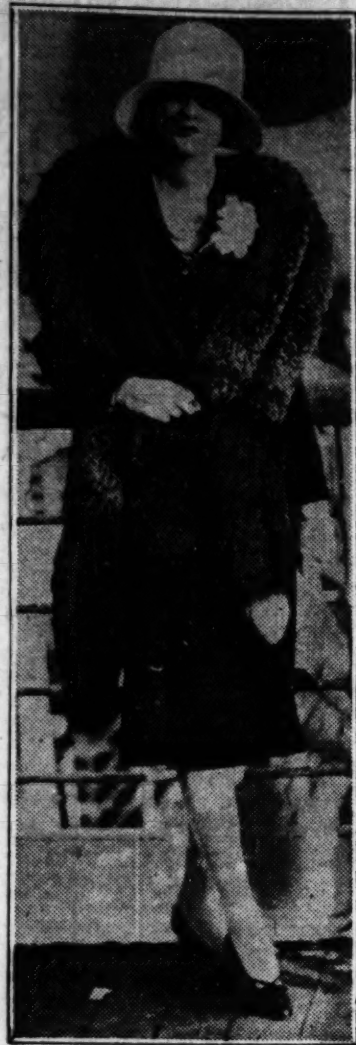

An aeroplane was sent from the Sudbury base of the Ontario forestry department last night to hunt tomorrow for the bodies.

Misses Smith and Otis were cared for by Indians on shore until rescued by a boat sent out from McGregor bay. Hodgkins Native Chicagoan.

Mr. Hodgkins was a native of Chicago. He was 52 years old and became connected with the Brownell concern 10 years ago after his graduation from Purdue university. The Hodgkins home is at 229 Lake Shore drive. His mother, Mrs. Jennie L. Hodgkins, resides at 7140 Princeton avenue.

Other members of the Hodgkins party at McGregor bay are Misses Mary Barnes, Ellen Stuart, and Elizabeth Couch, all of Chicago, and seven Yale classmates of Mr. Hodgkins' son.

## MASON, OWEN FACE NEW TRIAL IN WINE SCANDAL

State Senator Lowell B. Mason, Maj. Percy Owen, former Chicago prohibition administrator, and five others must stand trial on charges of graft and extortion in connection with the three year old wine scandal, Federal Judge Walter C. Lindley ruled yesterday.

Judge Lindley at Danville, Ill., mailed to the clerk of the Federal District court his opinion overruling the contention of defense counsel that double jeopardy had arisen in the case. Mason and Owen were acquitted last fall by a jury in federal court on charges of violation of the prohibition law growing out of the same wine scandal.

## Race Horse Owner Resists Bandits; Shot Four Times

Max Tandler, 44 years old, said to be the owner of a string of race horses, was shot four times last night by two men who held him up in an alley in the rear of the Metropole hotel, Michigan boulevard and 23d street, where Tandler resides. Tandler said the men told him to hold up his hands and he resisted. He was shot twice in the jaw, once in the right arm and once in the left hand. He was taken to St. Luke's hospital.

## J. R. THOMPSON'S \$6,000,000 IS LEFT TO FAMILY

Robert H. McElwee Estate Put at \$2,500,000.

The wills of two Lake Forest millionaires, documents disposing of more than \$8,000,000, were brought into the Probate court of Lake county at Waukegan yesterday.

One, the will of the late John R. Thompson, the initiator of the one arm restaurant business, who at his death June 17 left an estimated estate of \$6,000,000, was admitted to probate by Judge Martin C. Decker, through the Chicago firm of Mayer, Meyer, Austrian & Platt. The other, the will of the late Robert H. McElwee, capitalist and lumberman, who died June 26, involves an estate of \$2,500,000, and was introduced by a petition for filing which is to be heard Aug. 15.

**Thompson Estate to Family.**  
Mr. Thompson's entire estate, minus \$78,000 in specific bequests to 46 individuals, and a \$1,200 annuity to Miss Dolly Smith, his secretary, goes to his wife, Rose H. Thompson; his son, John R. Thompson Jr., and his two daughters, Ruth Thompson Owen and Florence Thompson Thomas. The son receives an immediate one-fifth of the estate. The remaining 80 per cent is the residuary estate, of which the income of one-half goes to the widow and of one-fourth each to the daughters.

Upon the death of Mrs. Thompson her son is to receive one-sixth of the residuary estate, which brings his total share to one-third of the entire estate. Upon their mother's death each of the daughters is to receive one-half of the residuary estate, minus the one-sixth that goes to their brother. Their shares are again divided in two, half of which is theirs outright, half of which is to be kept in trust, to be ultimately disposed of by them in their wills.

**Home Willed to Widow.**  
The Lake Forest property, a 112 acre estate, is given to Mrs. Thompson. Upon her death, or at such time as she chooses no longer to possess it, her son is given the right of purchase at the original purchase price of \$138,000. Similar rights of purchase of paintings, rugs and tapestries are given the daughters.

John R. Thompson Jr. has the privilege, provided he makes use of it within a 30 day period following their appraisal, of purchasing any or all of Mr. Thompson's horses. The price to be paid is the precise amount fixed by the appraisers.

The will, which was drawn at Palm Beach, Fla., on Feb. 9, 1927, names as trustees the Continental and Commercial Trust and Savings bank, John R. Thompson Jr., and "my friend and trusted employee, Henry M. Henriksen." Mr. Henriksen is among the eight friends who received bequests of \$5,000 apiece. The others are Attorney Henry Russell Platt of Mayer, Meyer, Austrian & Platt; the Rev. William C. Covert, Charles A. McCulloch, S. D. Goldenberg, Bennett Griffin, R. King Kauffman, and B. A. Ralston.

Gifts of \$2,000 apiece went to Earl Swalm, Henry Nehls, and W. S. Brown. There are twenty-nine bequests of \$1,000 each and six of \$500 each.

**Beneficiaries of McElwee Will.**  
The will of Mr. McElwee lists as beneficiaries the widow, Elizabeth McElwee; Miss Mary Waller, a grandniece, and Mrs. Irene Waller, widow of a

## WOLFF DEMANDS QUICK TRIALS IN MOTOR FATALITIES

Orders to expedite the prosecution of motorists in fatal accidents were issued by Coroner

Oscar Wolff last night at a meeting of his deputies, called to hunt a way to stop the mounting rate of automobile deaths. Wolff declared that many drivers are escaping punishment because of the delay in closing inquests.

"Take all available testimony at the opening session of the inquests, while the circumstances are fresh in the minds of the witnesses," he instructed.

Coroner Wolff blamed the growing toll on the fact that no physical or mental examination is required to be permitted to operate an automobile.

One death yesterday raised Cook county's 1927 toll to 480. Henry Pastwa, 9 years old, was crushed to death by a truck while roller skating in front of his home, at 2445 Dawson street. Police arrested the driver, Peter Kass, 1487 Otto street.

Motorcycle Policeman William Reicher of the Grand Crossing station has a few bumps to show for his night's work in arresting Dr. Michael F. J. Donovan, 42 years old, 7102 South Chicago avenue, and the latter's wife, 36, 45 years old, for speeding. Donovan, according to the policeman, was speeding his car south in Cottage Grove avenue in a race against a taxi cab. He followed Dr. Donovan to his home, but he refused to surrender and a struggle ensued, with the policeman victorious.

Others mentioned are Mrs. Virginia Bartholomew of Palestine, Tex., a sister; William M. McElwee of Lexington, Va., a brother; Miss Flora McElwee, also of Lexington, a sister, and Miss Nannine Patterson, a niece, of Medford, Ore.

The petition listed the following institutions and charities: The Glenwood School for Boys, Chicago; the Allendale School for Boys, Lake Villa; Chicago Nursery and Half-Orphan asylum; Washington and Lee university; Home for Destitute Crippled Children, Chicago; Bethesda church, Rockbridge Bath, Va., and the Glenwood Manual Training School for Boys, Chicago.

All of the estate, except \$1,000 cash, is in personal property.

**Charity Will Is Filed.**  
Charity will receive \$10,000 from the \$600,000 estate of the late William J. Carney, coal dealer, according to his will filed yesterday before Assistant Probate Judge Edward S. Scheffer. The Holy Name parish will receive \$2,500, the St. Francis Xavier academy the same amount, and the Association of Catholic Charities \$5,000.

Mr. Carney, who was 71 years old when he died June 27, bequeathed the bulk of his estate to his son, William Roy Carney, 3400 Sheridan road. A trust of \$50,000 is left to a grandson, William J. Carney II, and \$50,000 is to be distributed among distant relatives.

**CHARGES HUSBAND BROKE EAR DRUM.**  
Mrs. Margaret Canfield Nichols, 2046 East 73d street, testified yesterday before Superior Judge H. Lewis that her husband, Jesse, struck her in the head so hard that it broke an ear drum. The court indicated she will receive a divorce.

## YOUTH, REBUKED BY FATHER, HANGS HIMSELF IN HOME

Carlton Masen, 13 years old, a 1927 graduate of the Lane Technical high school, hanged himself at his home, 3001 North Washington avenue, last evening after he had been reprimanded by his father.

Early in the afternoon the youth, his father, John Masen, and his mother were riding in the family automobile. Father and son started to quarrel. Masen told the boy in sharp terms what he thought of the latter's conduct. Then he drove home and put Carlton out of the automobile.

Half an hour later the parents returned to find him dead. He had placed his belt around his neck, tied the other end to a curtain pole and then stepped off a chair. Firemen were summoned and attempted to revive him, but were unsuccessful.

Masen Sr. told the police that his son had not appeared particularly depressed and that he could think of no reason for the suicide.

## Unidentified Man Drops Dead at Loop "L" Station

While he was waiting to board an elevated train at the Randolph-Wabash station a well dressed, unidentified man about 65 years old, blind in his right eye, dropped dead last night. Laundry marks "J. W. H." were found on the clothing.

## JOHN D. SR. IS 88 TODAY; WILL WORK AND GOLF

New York, July 7.—John D. Rockefeller Sr. will spend his 88th birthday tomorrow at his home at Pocantico Hills, "as usual, in a quiet and homelike manner" among members of his family who are in this country and a few friends dropping in for dinner. It was announced at his offices here today.

"There will be no band," said the announcement, "no special events, no particular celebration, and Mr. Rockefeller will follow his usual daily program—work and golf in the morning, a drive in his automobile through the Westchester hills in the afternoon, followed by an early dinner with his family and a few friends."

## PRESIDENT AND ENVOY TALK OVER MEXICO AFFAIRS

Indications That Sheffield Will Quit Post.

BY PHILIP KINSLEY.  
[Chicago Tribune Press Service.]  
Rapid City, S. D., July 7.—[Special.]—Mexican affairs engaged the attention of President Coolidge this afternoon. He and Ambassador James R. Sheffield, who arrived this morning at the summer White House, sat on the front porch for several hours conversing the matter. Mr. Sheffield is to remain until Saturday.

Announcement of his resignation and the President's reluctant acceptance of it is considered a highly probable outcome of the conference. Mr. Sheffield declined to announce his plans today, but admitted he was sailing for Europe on July 25 for several weeks. The President is expected to make known his decision on the resignation tomorrow.

**May Leave Temporary Vacancy.**  
Talk of a successor to Mr. Sheffield still centers on John J. Garrett of Maryland, and Silas Strawn of Chicago. Mr. Strawn's former law partner, John Barton Payne, is one of the authors of the Payne-Warren treaties under which recognition was extended to the Oregon government under promise that there would be no legislation of a confiscatory nature. The Mexicans are drifting along peacefully now, and with the prospect of Oregon, who signed these treaties, coming into the presidency next year, the suggestion has been heard here that no successor to Sheffield be appointed until the question of Mexican support of these treaties is settled permanently.

**Wants Farmers to Meet Coolidge.**  
President Coolidge will receive Senator W. H. McMaster of South Dakota tomorrow morning. He arrived today. Senator McMaster will invite the President to meet the people of the eastern section of the state, he said, and if this journey cannot be arranged will bring the corn belt leaders here. The President, McNary-Haugenites say, cannot learn much of the problems of the farmers in this mountain region and dry farming communities. Senator McMaster said that in his recent contact with farmers he had found little sentiment for a compromise farm bill, but, on the other hand, a fixed determination to fight on for the principle embodied in the McNary-Haugen bill, which the President vetoed.

**Visits Indian School.**  
The President enjoyed his experience this morning of inspecting the government Indian school here. As this is the summer session, however, the only students present were 105 Indian orphans. They arranged a little program for the President and Mrs. Coolidge and presented to the President a peace pipe—an ornate bead and skin bag embroidered with flags. Mrs. Coolidge was given a piece of embroidery. The presidential party was conducted through a lane of Indian boys, in gray uniform, and girls in blue sailor suits, and listened to speeches by Tom Standing Elk, a graduate, and Norma Silverthorn. Chief Chaumoy Yellow Robe, who is addressed as Mr. Robe, and his daughter, Rosebud, whose dancing feet have led to talk of a stage career for her, were among those to greet the presidential party.

## LOOP TRAFFIC SAVES 137 'BRIDGED' HOURS, 1926 REPORT REVEALS

Docking of lake passenger ships at the Municipal pier instead of tip of the Chicago river saved traffic traversing the main branch bridges an estimated 137 hours' delay last year due to a decrease in the number of times the spans had to open.

The five bridges from Michigan avenue west to Wells street, opened only 12,394 times during 1926 as compared with 14,740 in 1925, a decrease of 2,346 times. The average time of each opening is 3 1/4 minutes, so the gain in traffic time, previously lost, was 8,211 minutes, or 137 hours.

Freight shipping through the 43 other bridges, over the north and south branches of the river, however, almost counteracted the improvement. Tug boats, scows, dredges, and commercial craft forced these 43 spans to open 11,629 times more last year than the year before. The grand total, however, for the 48 bridges was 94,436 openings in 1926 as compared to 94,685 in 1925, the net decrease in 1926 in the opening of the 48 bridges was 249.

Tables presented in the report soon to be made to the commissioner of public works show the comparative number of openings and time of each for the 14 bridges on streets in the loop district as follows:

Bridge	1925	1926	For each
Michigan	2,896	2,356	4.08
State	2,333	2,606	4.18
Clark	2,561	2,561	3.37
Dearborn	3,940	2,472	3.99
Wells	2,568	2,398	4.10
Franklin	2,265	2,235	3.39
Yale	2,566	2,795	3.76
Randolph	2,986	3,114	3.67
Washington	2,460	2,979	2.54
Madison	2,497	2,683	3.13
Monroe	2,455	2,744	3.06
Adams	1,771	1,771	3.19
Johnson	2,532	2,797	3.19
Van Buren	2,636	2,852	3.27

[Note: Adams street bridge up for repairs.]

From a financial viewpoint the operation of the bridges was more expensive than in 1925. In 1925 the cost was \$701,646; in 1926, \$704,810.

## Low Rate Round Trips!

**\$2.70 To Michigan City**

Summer round trip excursion rate—\$2.70, with 30-day stop-over. Visit this vacation paradise on Lake Michigan. Extra trains Saturday afternoon and Sunday morning, 12 parlor-observation and dining car trains daily.

## COOLIDGE THIRD TERM HOPES HIT BY LA FOLLETTE

Senator Assails Record of Administration.

[Chicago Tribune Press Service.]

Washington, D. C., July 7.—[Special.]—The Coolidge administration's record and the third term aspirations credited to the President were targets for sharp criticism in a statement issued today by Senator R. M. La Follette [Rep., Wis.], who declared the President's hopes of re-nomination are based on his control of southern delegates, "bought and sold with federal money."

Choice of the Black hills as the site for the summer White House was a clever move to win the agricultural sections of the country for the Republican party, but the President cannot make the farmers "forget his veto of farm relief legislation by wearing a 10 gallon hat and catching trout with milk fed worms," Mr. La Follette declared.

**Calls Record Heavy Burden.**

"Even at this early date," the statement, which is an excerpt from an editorial appearing in the July issue of La Follette's Magazine, said, "it appears that the President will have to do more than wear a 10 gallon hat, kiss babies and catch trout in order to carry him to a third term in the White House."

The President, as a candidate, must carry the weight of his record since he took office upon the death of President Harding. Among the burdens

which will prove heavy before his journey is over are the retention of Daugherty as attorney general; indifference to the oil scandals; attempted appointment of Warren as attorney general.

**Radicals Voice Same Protest.**

"Every person conversant with political conditions in this country knows that President Coolidge's power in the Republican party rests largely on his control of southern delegates who are

bought and sold, with federal jobs as the medium of exchange."

Similar criticism of the Coolidge administration's "imperialistic policies" were voiced today in the concluding session of the conference of radical leaders called by the People's Reconstruction League. The league was founded by Senator La Follette's

father.

Among the speakers at the session today were Miss Dorothy Detzer, secretary of the Women's International League for Peace and Freedom; Norman Thomas, noted Socialist and director of the League for Industrial Democracy; and Dr. Albert H. Putney, professor of constitutional law, National University Law school.

## BYRD AND CREW GIVEN GOLD KEY TO CITY OF PARIS

Plan 7 Years Exploring  
Earth from Air.

PARIS, July 7.—(AP)—Commander Richard E. Byrd and his three companions, Noville, Balchen, and Acosta, heroes of the New York to France flight in the America, signed the gold key to the city of Paris today. They heard eulogies from the lips of the president of the municipal council, from the president of the chamber of deputies, from cabinet ministers and from Marshal Foch.

As public idols they listened to thousands of words of praise from many tongues, cheers from tens of thousands of throats, and collected compliments and kisses, medals of bronze, silver, and gold.

Leave at Noon Tomorrow.  
Tomorrow will be their last full day in Paris; they are leaving Saturday at noon for Dunkirk, and then will go to La Touquet, from where by automobile, or maybe by plane, they expect to reach Cherbourg in time to start for home Tuesday aboard the Leviathan.

Aboard ship they will find Clarence D. Chamberlin, pilot of the trans-Atlantic monoplane Columbia.

The America will go home with Byrd, its motors in boxes, its clipped wings in crates. Many big and little strips of the plane remain forever in France, souvenir hunters having made most of the wreck when the historic monoplane was brought out of the water at Vers-sur-Mer last Friday.

Plans Seven Years in the Air.  
Elaborating on his future plans as an explorer, Commander Byrd said today that after the year and a half or two years to be spent flying about the south pole and the antarctic continent he hoped to spend five years more exploring the trackless forests of Brazil from the air, in a good will flight around South America, to be followed by an expedition to Arabia.

"Will you try to fly over Mount Everest?" he was asked.

The north pole hero grinned as he replied: "That's an interesting flight, but it's not in my line."

Willbur Agrees to Flight.  
Washington, D. C., July 7.—(AP)—The idea of a flight around the equatorial girdle of the globe by naval aviators, advanced by Secretary Wilbur, originated in the bureau of naval aeronautics, he disclosed today.

Mr. Wilbur meant to imply no objection to Commander Byrd's proposed south polar flight when he suggested that the equatorial flight would be of more value.

"I hate to see Commander Byrd

risk his life," said Mr. Wilbur, "but if he proposes to go to the south pole the navy would interpose no objection."

The secretary, however, insisted that a flight around the equator would be less dangerous and productive of greater scientific knowledge.

**CIRCUS WILL PAY  
TRIBUTE TO DEAD  
IN TRAIN WRECK**

Performers of the Hagenbeck-Wallace circus will visit the Woodlawn cemetery, West 22d street and Harlem avenue, next Sunday afternoon as a tribute to the fifty-eight circus folk buried there who were victims in the train wreck of June 22, 1918, when 84 members of the circus were killed and 179 injured. The circus band will render a sacred concert at the cemetery and flowers will be placed on the 58 graves. The circus people were killed when two trains collided between Hammond and Gary.

**FLAMES CAUSE  
\$100,000 LOSS TO  
LOOP BUILDING**

Fire early today destroyed the building at 219 West Lake street, occupied by the Sydney Laner company, billiard table manufacturers, causing damage estimated at \$100,000. Fireman Anthony Knopick, 80 years old, of engine company No. 40, was overcome and several other firemen were affected by smoke in fighting the blaze.

Traffic on the Lake street elevated lines was tied up for hours when the current in the third rail was cut off. The flames for a time threatened to spread to a new six story building occupied by the Herring, Hall & Marvin Safe company at 233 West Lake street.

**AGENTS RAID OPTUM DEN.**  
Narcotic agents, climbing hand over hand along thirty feet of rain spout, yesterday raided an optum den at 211 West 23d place and arrested Young Ding Lee, alleged owner. Lee was held in bonds of \$1,000 by United States Commissioner Henry C. Bettler.

## BAPTIST UNION TOLD OF CHURCH BOOZE PARTIES

Girls Tempt Boys to Drink,  
Delegate Says.

Philadelphia, Pa., July 7.—(AP)—Instances of drinking in church and among young churchgoers were cited tonight by delegates to the convention of the Baptist Young People's Union of America after prohibition had been defended by Congressman Grant M. Hudson of Michigan, as having brought about improved conditions.

The discussion took place in an open forum on law enforcement. Congressman Hudson had urged the young people to work against the election of "wets" to any public office.

**Party in Basement.**  
"In our church, the West Side Branch Baptist church," asserted Edgar R. May, Kansas City, "we discovered not only that many of the young folks were catering to evil for financial purposes and using the church as a cloak, but that a drinking party was held in the basement of the church building."

"I made a tour of the southern states and when in Savannah was introduced to young people supposed to be the elevating group in the Baptist church. I went on a party with them. I saw a young lady smoking cigarettes and another stirring a punch bowl that had everything in it but punch."

**Girls Get the Blame.**  
"When I refused to drink and smoke I was unable to secure a 'date' with any of the girls. The crowd refused to admit me because I refused the influence of evil."

Mr. May said "the girls set the standard," and in this he was backed by a Detroit delegate who asserted "the young women tempt the boys to drink."

Several girl delegates came to the defense of their sex declaring that the cases cited were isolated and that "the general run of girls is not of the evil influence type."

**ROMANIAN ARMY CHIEF QUIT.**  
PARIS, July 7.—(AP)—A Rava dispatch from Bucharest says that Gen. Lupescu, chief of staff of the Romanian army, has resigned.

## Great Lakes Seaman Gets Medal for Heroic Rescue

Walter L. Vogelwang, seaman at the Great Lakes' naval training station, has been awarded a silver medal by Secretary of the Treasury Andrew Mellon for heroism in rescuing a shipmate from drowning at San Diego on Nov. 30, 1924. Vogelwang dived into a narrow space between the ship and the dock and saved W. T. McFarland, who had fallen overboard.

## PACIFIC FLYERS TELL HOW FLIGHT AIDS U.S. DEFENSE

Reveal Army's Planning  
of Hop to Hawaii.

BY LIEUT. LESTER J. MATTLAND  
AND ALBERT F. HEGENBERGER.  
(California to Hawaii Flyers.)

(Copyright, 1927: In the United States, Canada, Mexico, Cuba, South America, Japan, Europe, and the British Empire. By the New York Times Company. Reproduction in whole or in part, forbidden without permission. All rights reserved.)

FIRST ARTICLE.  
(By wire to the New York Times and Chicago Tribune.)

HONOLULU, H. I., July 7.—The dream of every man who flies is the conquest of new regions of the air. In the case of military aviators it is simultaneously to demonstrate the needs and possibilities of military defense through the use of aircraft.

Ever since our respective tours of duty in the Hawaiian islands, one from 1919 to 1921, and the other from 1923 to 1925, it was our dream, hope and ambition to make a nonstop flight from the Golden Gate to Uncle Sam's mid-Pacific territory. Time after time we requested authority to make the flight.

The chief of the army air corps had felt absolutely certain that the flight could be made by army pilots, but it was a question of obtaining the proper airplane.

Plane Undergoes Tests.  
In October, 1924, the air corps purchased from the Atlantic Aircraft corporation a new type of transport airplane for the specific purpose of making this flight. Uncertain, however, that the airplane was absolutely capable of completing the flight, several tests were outlined.

A technical group from the engineering section of the military division was ordered to conduct a series of tests—load carrying and field economy tests. The design of this airplane was based on the results obtained from a series of performance tests, run during the summer of 1924, on a similar three-motored airplane such as used in passenger carrying between Philadelphia and Washington, D. C.

The airplane was delivered to the air corps in February of this year. Tests conducted at Dayton field lasted from the time of delivery to June 6. Various weights from 2,000 to 12,700 pounds were carried and the gasoline consumed while flying around a closely measured course was carefully measured at all speeds, from 60 to 120 miles an hour, the latter being the high speed of the airplane.

Happy to Make Flight.  
We were very happy to have been selected to make the flight, and while one of us was preparing the navigating equipment, which we will describe later, the other was flying a similar type of airplane across the continent and back.

While all these tests were in progress a careful check of the stresses imposed on various members of the structure under these large loads was made by a technical unit of the air corps branch.

The airplane selected was a Fokker monoplane type with a wing spread of twenty-two feet. As a result of the technical unit's tests it was found necessary to reinforce parts of the structure by welding in additional tubes, making new fittings and generally strengthening the structure. This is particularly important to insure against any failure of the structure while carrying the large loads required on the take-off for a flight. The wings are constructed of two main box bars, with a three-ply birch veneer.

Designed by Fokker.  
This plane, designed by Anthony Fokker, who is regarded as one of the foremost designers of military as well as commercial airplanes, has three Wright whirling motors, developing 200 horse power at 1,600 revolutions per minute.

To laymen a striking thing in the

No matter how hot the weather, you can have a bearable week-end in these pooling surroundings:

Linen underwear  
Wool crash suit  
Light weight golf suit  
White flannels  
Linen knickers  
White buck shoes  
Straw hat  
Bathing suit  
They're all waiting for you.

To invest in one of these mark down suits is to tuck away a good substantial saving—\$45 and \$50 now for suits that were \$10 to \$15 higher.

ANDERSON & BROTHERS  
Rogers Peet Clothes  
Hats—Shoes—Furnishings  
Michigan Boulevard  
(At Washington)

appearance of the Fokker we flew is that the wings have no external bracing, no strut wires or other members whatever, being of cantilever construction. The wing alone weighs 1,800 pounds. An airplane without supplies and gasoline for trans-Pacific flight weighs 6,600 pounds. When we took off from Oakland the total weight, including our own combined weight of 225 pounds, was 14,000 pounds.

Had Not Flown Together.  
When we came to the Wright field at Dayton to prepare for the Pacific flight, we, old friends, had never flown together before, but had perfect confidence in each other and each was pleased that the other had been selected.

In no sense was the flight a race or stunt. As already explained, the flight was contemplated and decided long before there were any prizes offered for a trans-Pacific flight. From a military viewpoint it was highly desirable to link our island territory with the mainland so that in the event of an emergency an important officer or exceedingly confidential message and plans could be sent across the distance in twenty-four hours.

Every thinking military strategist realizes that the Hawaiian islands are a frontier defense post for the entire Pacific coast and that with the Pacific coast they form a defense for the entire continental United States. Also, it had long been our desire that army pilots should fly over long stretches of water with navigational equipment we had developed in the army air corps.

A Step in Coast Defense.  
If this test were successful it would mean that an enemy warship could be successfully bombed a thousand miles from the Pacific coast and that a bomber would be able to return safely to the base. This flight, then, is an integral part of the developments in military strategy for the protection of our coast line, which is a part of the duties of the army corps.

Another object was to obtain a thorough test of the performance and accuracy of various types of navigation equipment. Still another object was to test out in long-range flight the performance of the new radio beacon. For this purpose there was set up on the island of Maui a radio beacon station operated by the army signal corps, which was to be in constant communication with us as possible.

This radio beacon was to signal our course, we in mid-air catching the signal and from it determining our positions relative to the direct course. It was also certain that much valuable data could be obtained for use in the establishment in the near future of regular commercial air lines.

Kept Plans Secret.  
A practical test of all our equipment would come on the flight from Wright field to the point of take-off on the Pacific coast, and until such time as we were certain all equipment was entirely satisfactory and that the flight would be made, it was natural to observe secrecy.

This is the reason nothing was made public concerning our plans, and even until after we left Wright field this secrecy continued.

## TWO ADOPTED 30 YEARS AGO NOW SEEKING MOTHERS

There is a woman in Philadelphia, and another in Portland, Ore., who were placed out for adoption more than 30 years ago, and who now are seeking information regarding their own mothers, formerly of Chicago.

C. V. Williams, superintendent of the Illinois Children's Home and Aid society, the agency through which the women, as infants, were placed in families for adoption, received their requests within the last few days. He has assigned Mrs. Allie Jewell of the society to try to trace the mothers. But various changes of address, as well as changes in street numbers, have made the work difficult.

So the society, through The Trib-

une, asks for information as to the whereabouts of these women:  
Mrs. Agnes Ellis, whose daughter, Lillie, was given for adoption in 1891 and now lives in Philadelphia. In 1891 Mrs. Ellis lived in the home of Mr. and Mrs. Henry L. Brandis of Brainerd, Ill.  
Mrs. Anna Zehnphennig, whose daughter, Stella, was adopted in 1913 and now lives in Portland, Ore. The records show that Mrs. Zehnphennig's address, in 1893, was 993 West Adams street.

## LEVINE SIGNS UP FRENCH AGE TO FLY BACK HOME

BY JAY ALLEN.

(Chicago Tribune Press Service.)  
PARIS, July 4.—(Friday).—Charles A. Levine will fly from Paris to New York with Lieut. Maurice Drouhin, French war ace and well known commercial aviator, as pilot, he announced at 2 o'clock this morning.  
Levine, who flew to Berlin with Clarence D. Chamberlin as pilot of the Bellanca monoplane Columbia, if he succeeds, will be the first man to cross the Atlantic twice in a nonstop flight.

The takeoff is expected within a fortnight, depending on repairs.  
If the plane is successful, Levine and Lieut. Drouhin will not stop at New York, but will continue west, trying for a new long distance mark.  
Levine will study French.  
Tomorrow Levine and Chamberlin will fly to London with Lieut. Drouhin to show him the fine points of the plane. Just how they will make themselves understood after the takeoff is a question. Lieut. Drouhin does not know English and Levine and Chamberlin are ignorant of French. Before the journey across the stormy Atlantic Levine will purchase a pocket dictionary and study French, he said, so that he can communicate with his new pilot.  
Levine refused to state the salary offered Lieut. Drouhin, but it is understood that in addition to the cash he is taking out \$50,000 insurance in favor of Mme. Drouhin and an additional sum for a young Drouhin who is expected to see the light of day

some time tomorrow, according to word from the hospital.  
That Levine's decision to fly back to America may affect Franco-American good will was considered a possibility. Sydney B. Veit, president of the American Aeronautical society, said at a dinner today: "All of us here, Americans and French, believe that the honor of crossing the Atlantic westward should be reserved exclusively for a French outfit, plane and pilot."  
Why Chamberlin Is Out.  
PARIS, July 4.—(Friday).—Clarence D. Chamberlin, who flew from New York to Berlin with Charles A. Levine, pilot of the Bellanca monoplane Columbia, again tonight declined to explain reasons for the break with Levine.  
Friends, however, pointed out occasions on which Levine convinced Chamberlin that they were not aerically compatible.  
One act of Levine which annoyed Chamberlin was the dispatching of a message, signed by "Levine and Chamberlin," to Commander Byrd, who flew

to France in the America, offering to accompany the America on a return flight.  
Again during the round of visits to European cities, noticeably at Vienna, Austria, and Marienbad, Czechoslovakia, Levine, friends of Chamberlin say, insisted upon taking off under such weather conditions that Chamberlin thought it almost suicidal.  
Also it is understood that Chamberlin is dissatisfied with the condition of the Bellanca plane and has advised Levine that it would be a matter of weeks before it could be placed in condition for the return flight.  
Robbers Collect Poor  
Box Fund at St. Paul's  
Burglars who broke into St. Paul's Episcopal church, 4945 Dorchester avenue, opened two poor boxes and stole the collections for the last three weeks, the police of Hyde Park station were notified yesterday by Miss Louise G. Larraby, secretary of the church.

### BRAIN PIERCED BY STEEL BAR; VICTIM LIVES

Although a steel bar three-quarters of an inch in diameter and twenty-six feet long passed completely through the brain of Paul Kosty, a steel worker of Hammond, twelve days ago, he is still alive and physicians at St. Margaret's hospital, Hammond, believe he will recover.  
Kosty, who is 37 years old, was at work in the La Salle steel plant and leaned over a mill planing bench. The long bar struck him on the left side of the neck, passed through his mouth and his brain and emerged at the right side of his head. Four definite skull fractures were made, but in spite of this Kosty's vitality was so great that he aided physicians in drawing the last four feet of the bar through his head.

## N. Y. POLICE ROUT 10,000 IN SAGCO DEMONSTRATION

### Communists Appear and Start Riot.

New York, July 7.—[Special.]—Ben Gold, a radical who gained prominence in the fur strike, and a handful of communists appeared at a Sacco-Vanzetti protest meeting of 10,000 workers in Union square today. The result was an incipient riot, thirty minutes of battle when police arrived, and six arrests.

Those in the square was a study in action for a while. At the height of the melee the north end of the park was a mass of milling, fighting, wringing, and fleeing workers. The action was set to an accompaniment of exclamations in a score of tongues, punctuated by the thump of police clubs finding targets.

**Police Charge Parade.**  
When more than a hundred policemen, reinforced by fifteen mounted men, finally cleared the battle zone the meeting was a thing of the past and a score of sympathizers of the two condemned radicals were nursing sore heads or scratched faces. A triumphal parade of two dozen of the followers of Gold, long haired and youthful leader, was scattered in a single charge of bluecoats.

The meeting was called by the Sacco-Vanzetti liberation committee, and the attendance came from the ranks of approximately 100,000 members of sixty unions which had voted a one hour "general strike" starting at 4 p. m. Two other meetings in Manhattan and one in Brooklyn were held about disorder and resolutions were adopted asking Gov. Fuller of Massachusetts to grant Nicola Sacco and Bartolomeo Vanzetti their freedom.

**Orderly at Start.**  
The meeting in the square was proceeding in orderly fashion and 120 policemen under Inspector Patrick McCormick and Capt. William H. Ward had little on their minds beyond the likelihood of rain when Gold came into the picture.

**Sanitary Board Orders**  
**New South Side Sewer**  
The sanitary district board yesterday ordered plans and specifications to be drawn for an intercepting sewer to serve the south side between 39th and 41st streets. The sewer is expected to cost about \$2,000,000. It has been needed on the south side since 1910, according to the trustees.

**THE CHILDREN.**  
There are some to the selection of the for the public schools have not been told in few of them are as full-

**STUBBORN, UN-SIGHTLY PIMPLES ON FACE AND BACK**  
Skin now clear and smooth

Donbs, Md., July 13.—"Three or four years ago my face and back broke out with pimples and blackheads. When I picked or pressed them they would get very sore and burn. I used several kinds of cold cream, but none of them helped a bit. Then I happened to see your advertisement and thought I would try Resinol Soap and Resinol Ointment. Within a few weeks I had not a pimple or black-head at all and now my face is nice and smooth. I have also found Resinol Soap very refreshing after coming in out of the sun, or wind." (Signed) Miss Elsie E. Painter.

If you are troubled with a rough, pimply skin, ask your druggist today for Resinol Soap and Ointment, and see what an improvement a week's use will make.

**FREE**—Sample of each of these products if you will write Dept. 62, Baltimore, Md.

## Dresses that Promise Summer Coolness and Chic—Exceptional at \$25

First, a tailored two-piece of silk crepe in light shades or in navy, piped in contrasting color.

Second, a one-piece of flowered chiffon with new side jabots. In many dainty summer colorings.

Third, a frock of fine silk crepe has the smart Cardigan jacket. Choose in navy or light shades.

Fourth, a two-piece of flowered chiffon trimmed with small bows of self material. In many colors.

Fifth, a two-piece of georgette with chic new neckline. Flower and buttons are of self material. In navy, black and light shades.

Printed chiffons strewn with summer blossoms, transparent georgettes, firm, light crepes—these are summer's chosen, and these are the fabrics you will find in this gay, remarkably priced collection of dresses for Women and Misses. Their charming and original styles are many of them reminiscent of the recent Paris mid-season Openings, charmingly adapted for the summer months—cool, low necks, filmy jabots, small weight-less bows.

Colors include every smart daytime shade, a fusion of soft, rich flower tints in the prints, the enchanting new pastels as well as navy and black in the plain fabrics. In Misses' sizes, 14 to 20; Women's sizes, 34 to 42. In addition to the frocks pictured there are many other attractive styles in printed georgette and in chiffon featured at this same attractive price, in Women's sizes up to 44.

Center—one-piece wool Bathing Suit, red, black, navy or royal blue, \$5. Rubberized cretonne Bathing Coat, \$5.75. White canvas Belt, 35c. Rubber Cap, 75c. Shoes, 85c. Right—a particularly smart sleeveless dress of washable silk comes in all light shades, \$17.50.

Women's and Misses' Sports Apparel, Sixth Floor, Middle and South, State

## Misses' Travel Coats The New Mixtures for Fall Are Badger or Fitch Collared, \$85

A new coat has just arrived which speaks the first word in fall smartness. The material is a new mixture—brown and tan, the two colors most mentioned for autumn, combined—the lines very chic. The mushroom collar, becoming as it is unusual, is of fitch or badger fur, soft, lustrous and handsome. The coat is priced \$85. The summer travel coat plays its role all summer, aboard ship, in the mountains, on the train, and its importance increases with fall. A coat selected from our collection forecasts the fall modes which are doubly smart now.

Misses' Coats, Sixth Floor, Middle, Wabash

## Fine Fur Felts in A Special Selling, \$10

Delightful hats for all occasions—street or sports wear, or for more formal affairs—in the dainty pastel shades so smart for summer. There is starlight blue, serpent green, gull gray, popcorn, beige, parchment, bridal rose, and white, to match the daintiest frock. And there are sizes which will fit the tiniest or the largest of heads.

The English Room,  
The Street and Sports  
Section, Fifth Floor,

The snake-skin ribbons come in two toned green, blue, brown, and bois de rose. They are 7 inches in width and \$3.50 the yard.

Ribbons, First Floor, South, State

## Two Cool Youthful Shoes

The 3 eylet tie of patent leather, trimmed with blonde lizard calf, is imported from Switzerland. The sandal effect of goat ecraze, also imported, is most suitable for warm weather wear. Many other attractive models will be found in these smart, low heeled shoes.

College Girl Shoe Section, The Junior Floor, the Fourth

## TWO BIRGER AIDS FOUND GUILTY AS HE AWAITS JURY

Marion Verdict May Hurt  
Gang Leader, Too.

Marion, Ill., July 7.—(AP)—Radio Millich and Eural Gowan, Birger gangsters, were found guilty today of murdering Ward ("Casey") Jones, a fellow gunman, last October. Millich was sentenced to death and Gowan to twenty-five years' imprisonment. Jones, according to testimony, was killed by Millich in a quarrel as to which one of them was in charge of "Shady Rest," Birger's fortified retreat between Marion and Harrisburg. Millich, a convict, pleaded self-defense, declaring Jones had fired on him with a submachine gun. Gowan admitted he was present, but denied he had assisted in the killing.

Both defendants took their sentences stoically. An effort will be made to get a new trial for Millich.

May Be Sent Against Birger.

As a result of the capital punishment verdict in the Millich case, State's Attorney Arlie Boswell of Williamson county, who prosecuted the Millich-Gowan case, declared he would bring Birger to trial here for the murder of State Highway Patrolman Lory Price and his wife, unless the penalty is imposed in the present trial of Birger at Benton.

Gowan's youth, his brief career as a henchman of Birger, and testimony that he fired two shots into Jones' body only after Millich already had shot him twice with a high-powered rifle, were deciding factors in the comparatively light sentence for him. He is 19 years old. Millich is 34.

Millich is the first man to receive a death sentence since Gov. Len Small signed a law yesterday substituting electrocution for hanging in Illinois.

### WOMEN JURORS DENIED

[Chicago Tribune Press Service.]  
Benton, Ill., July 7.—[Special.]—Charlie Birger, the gang chieftain, who ruled southern Illinois with his personality and nimble trigger finger, late today tried to get a jury venire made up of both men and women to try him for the murder of Joe Adams, mayor-elect of West City.

Attorneys R. E. Smith and Charles A. Karoh guided the attempt to get a mixed jury panel by a motion challenging the panel of twelve men that awaits the start of the selection of the jury tomorrow morning.

Judge C. H. Miller denied the motion, after hearing arguments from the two attorneys. The judge chief was apparently attentive as his lawyers propounded

## FIND NATURAL GAS WHILE DIGGING WELL NEAR CITY OF ELGIN

(Picture on back page.)  
Workmen sinking a well on a subdivision project three miles north of Elgin yesterday struck a pocket of natural gas at a depth of 131 feet.

Water and bits of rock were hurled into the air by the gas. The well was capped a little later, a two inch pipe was inserted in the drilled hole and the flow was lighted for a short time. Witnesses asserted that the flame was fifteen feet high.

Several experts said it might be feasible to supply homes in the vicinity with the gas. The rock formation near the well did not indicate the presence of oil, it was said.

the law before the court. His wife, two little girls and his sister sat with him.

Defendants' Kin on Hand.

Art Newman, who is on trial with Birger, sat beside his wife, and Ray ("Izzy the Jew") Hyland, the third defendant, sat beside a sister who never knew he was in trouble until she saw his pictures in the St. Louis papers.

Today's action in the Birger case, regarded as rather a desperate one in the Franklin county court, may yet be the instrument to give Illinois women the right to sit on juries in this state. It was admitted by the lawyers that the move was made primarily to get the question before the courts. "I do not now anticipate that we will have to take this case to the Supreme court," Attorney Smith said, "but if we do we will seriously and earnestly ask for a ruling for women on juries."

Birger, Newman and Hyland all were denied the right of a separate trial that they had asked of the court. The court ruled that none of them had made a showing of the others that would prejudice his individual case as a co-defendant.

So far the trial has been a solid array of adverse rulings for the defense, every preliminary motion by Birger and his co-defendants having been denied.

## LAST HOPE OF JOLIET KILLERS FADES; MUST DIE

The last hope of the three convict slayers of Warden Peter Kleh of Stateville penitentiary, who are to be hanged July 15, expired yesterday when the clerk of the Supreme court issued the mandate to Sheriff Albert E. Markgraf of Will county directing the execution to take place between sunrise and sunset on that day. The time for filing a petition for a rehearing expired yesterday and the only person who can now interfere with the execution is Gov. Small.

Roberto Torres, Charles Duschowald

and Walter Stalecky are the three slayers left of the original group of seven. Two of the men were killed in subsequent attempted escapes and two others are at liberty.

The attorney general has been asked for an opinion as to the method of execution to be applied in view of the new electrocution bill signed Wednesday by the governor.

Warden Edward J. Fogarty of the county jail started preparations yesterday to install the new method in his jail. He announced that next week he and a group of officials will visit the Indiana state prison, where electrocution is used.

GET \$145 IN STORE HOLDING.  
Rendite held up Louis Jeffery, store manager at 1467 West Van Buren street, yesterday and took \$145.

## Form Police Squad to War on Gambling Den

Capt. George O'Connor, formerly of the Cottage Grove police station, was appointed as head of the gambling squad working out of the chief's office.

by Chief Hughes yesterday. Lieutenants Charles Egan and Garret Coan will assist him. The squad will operate in all parts of the city under orders to close every gambling resort in town, the chief said.

## Copper Threads Woven Into Chicago Life

COUNTLESS miles of thread-like copper wires, countless voices borne by electricity over them weave the pattern of much of the business and social life of Chicago.

Fifty years—hardly a paragraph in human history—have seen the telephone grow into a vital business and social necessity. The expansion of this swift, sure and marvelous means of communication is one of the business romances of the world.

In 1876 there were only two telephones in the United States—in 1926 approximately 17,600,000. To this vast total, America's second city contributes its splendid share. In 1926 alone 74,842 new telephones were installed to supply the ever-growing needs of the city and its suburbs.

In our complex modern life swift communication is indispensable. In providing this the telephone bears the lion's share of the load. No other utility is woven so intimately into the warp and woof of individual necessity and convenience.

Let this great public-service be suspended but

a few minutes and business and social activities would be disorganized. This thought has vast meaning when considered in terms of the unflinching efficiency of the telephone company.

To achieve this unbroken system of communication the finest equipment is provided. As human ingenuity creates even better appliances these are put into service. Constantly is the imposing army of skilled workers increased to maintain the high standard of efficiency.

Had electricity withheld every other gift from man, the telephone would place the world under supreme obligation. Day and night, year in and out, the people of Chicago can command this tireless servant, facilitating the transaction of business and weaving the web of their social life. It never fails or falters, quibbles or questions.

When you lift your receiver remember that behind this miracle of instant communication lie fifty years of scientific investigation and development—the patient working out of problems by electrical experts to perfect a service that is one of the supreme triumphs of civilization.

## THE ELECTRIC ASSOCIATION

An organization engaged in the development and improvement of the services rendered the public by the electrical industry in the Chicago district.

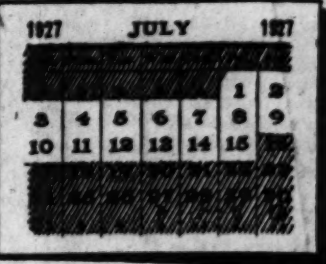

30 North Dearborn Street, Chicago

"London Is Calling"

Swift as thought a voice from over the sea beats on your ear drum. A modern miracle, and yet so easy in performance that you have but to lift one of the 871,808 telephone receivers in Chicago or one of the 325,838 in the suburbs and "Long Distance" will connect you with London, Edinburgh, Swansea or any other point in England, Scotland or Wales. Thus the world accepts this great achievement as a matter of course is a distinguished tribute to the efficiency of the telephone company. Experience has taught the world to expect much in the way of progress and super-service from the telephone company, and this is being given in beautiful measure.

## You Secure Interest from July 1st

on all savings deposited in a Checking-Savings Account in this bank on or before July 15th. In other words, you can open an account now without losing a penny's worth of interest.

If you have an ordinary Savings Account, all you need do is bring us your Savings Bank Book and we will at once convert it into a *Combination Checking-Savings Account* and attend to all other details for you. You will not lose ANY interest. But you will get a *Combination Checking-Savings Account* that will be of great value to you; an account that will permit you to save and check at the same time.

## If You Open a Combination Checking-Savings Account

you will eliminate the annoyance, trouble and time involved in maintaining two separate accounts, for under our plan, you transact ALL of your banking business with just ONE account.

When you have separate checking and savings accounts, you are obliged to go from one window to another, sometimes from one bank to another. Under our plan you SAVE all of these unnecessary steps because all of your business is transacted at just ONE window.

## On or Before July 15th

all savings deposited in a Checking-Savings Account will be credited with interest from July 1st.

You will find a Checking-Savings Account will save you many hours of time, because you are privileged to draw checks in payment of bills, and you are saved the time involved in going from one window to another. You check and save on the same account.

## It Will Take but a Minute

to open a Checking-Savings Account in this bank, and the minute expended in this way will prove a money-maker for you.

With a *Combination Checking-Savings Account* you save money because your surplus funds—those not required for checking purposes—are kept on an interest earning basis. In other words, you have no funds lying idle in a checking account. Your surplus is constantly earning 3% Compound Interest for you.

You will find a Checking-Savings Account of great value to you. You can open an account for any amount.

## OUTLAW TOWNS' TRAFFIC SIGNALS ON STATE ROADS

New Law Seen as Aid to Fast Motoring.

The day of the small-town traffic light slow-down for through automobile travel on state roads within Cook county appears to have reached the twilight of its existence with the signing of senate bill 551 by Gov. Len Small.

From yesterday the erection of signals and signs by local municipalities on state highways passing through them, which in the past has been a favorite pastime fraught with much employment of painters' materials and electrical contrivances, ceases to be a means for making well behaved motorists lawbreakers, and becomes instead a breach of the law itself.

At a meeting of the county board and bridge committee on Wednesday, President A. J. Cermak of the board of commissioners reported that a number of offending stop-light systems were in operation through small villages in the county and that they were an important factor in slowing up Chicago holiday traffic over the Fourth.

Seek Opinion of Lawyer.  
An opinion as to the rights of these municipalities to maintain such signals was asked from the board's counsel, Gov. Small's validating signature to senate bill 551 undoubtedly will mean the rescinding of the law on an opinion on the part of the county's counsel.

The terms of the bill provide for the control of state highways constructed by the state or those constructed by lower units and acquired by the state. The sections which apply to the present situation are prohibitory clauses. The state reserves the right and duty to erect standard guide and warning signs and distance boards.

"No other traffic signs shall be placed upon such streets or upon any streets of any city, town or village," the bill provides, "that comprise a part of the state highway system, under the jurisdiction and control of the department of public works and buildings, or for which the state is responsible."

Violation is punishable by fines of from \$5 to \$50.

Bar Traffic Signals.  
Particularly applicable is the following: "The erection of any traffic signals or stop signs and the parking of any vehicles upon any portion of any street for the entire width thereof within the corporate limits of any city, town or village," section 10 1/2 reads, "upon which the state has durable hard surfaced road, or which were constructed by any city, town or village, is hereby expressly prohibited, except-

## SIX-MILE RAIL BORE OF MOFFAT TUNNEL IS PUSHED THROUGH

West Portal, Colo., July 7.—[U. P.]—One of the west's greatest engineering feats moved a step nearer completion today when the rail bore of the Moffat tunnel was pushed through.

Work on the tunnel was begun in September, 1923, and 18 men have lost their lives in the enterprise. At East Portal the tunnel elevation is 9,198 feet; at West Portal 9,085 feet, and at the apex 9,245 feet.

Moffat tunnel will be the longest on the American continent—6.1 miles—and will shorten the rail distance between Denver and Salt Lake City, Utah, 173 miles, eliminating 30 miles of 4 per cent grade and leaving a maximum grade on the road of 2 per cent.

ing as may be authorized by the department.  
"Any traffic ordinance of a city, town or village shall be deemed void in so far as the same may be in conflict or inconsistent with the provisions of this section."

"Any person who shall erect traffic signals or stoplights in violation of the provisions of this section shall be deemed guilty of a misdemeanor for every day such person shall suffer such traffic signals and stop signs to remain on such streets."

Violation under this clause is punishable by fine of from \$5 to \$50. The

statute also prohibits the erection of signs, billboards or other advertising signs on any portion of the highway.

## ROAD BILL IS SIGNED

The legislative act enabling Cook county to use a portion of the proceeds from the \$15,000,000 bond issue voted last fall for the widening of existing highways in the county became a law yesterday when Gov. Len Small signed it.

That provides the county board with clear authority for the widening of a number of main arteries over which interstate and intercity traffic now does its traveling in and out of Chicago.

"Probably the first step in the program will be the widening of Dempster street from Waukegan road through Evanston to north and south arteries," said Mel George A. Quinlan, superintendent of county highways. "We are ready to proceed at once and will start work as soon as Evanston provides the necessary legal steps involved in the vacation of the parkway at the eastern end and some minor concessions. It is expected that Evanston will act within a few days. That suburb also is to

provide a widened portion within its limits which will carry the forty foot road surface to the lake.

The program adopted before the passage of the bond issue, provided for the widening of approximately 110 miles of highway to forty feet, fifty miles of new forty foot highway, and the construction of approximately 250 miles of additional 20 foot pavements and 57 miles of city connections.

"The road widening portion of the available bond issue should have preference over the other phases of work," Charles Hayes of the Chicago Motor club, said last night. "The money is provided and the improvement is important; the slogan should be 'Let's Go.'"

All commissioners on the county board are under pledge to give preference to forty foot roads. There appears nothing that should prove an obstacle to immediate action by the county highway authorities.

The program is to be completed in about three years.

WELD TO GRAND JURY AS FORGER.  
J. C. Sweeney was held to the grand jury yesterday in \$7,000 bail for having forged the name of John D. Miller of Wheaton to a note for \$2,300.

## CHICAGO TAX MAY BE LAW WITHOUT GOVERNOR'S O. K.

Gossip Is That Small Will Dodge Signature.

BY PARKE BROWN.

(Chicago Tribune Free Service.)  
Springfield, Ill., July 7.—(Special.)—Gov. Len Small may not sign the Thompson bill to increase Chicago's corporate tax rate 2.5 per cent.

Delayed in the big grip of acts passed by the general assembly, the governor signed 120 bills today—the corporate tax measure has not yet been placed before him. Inquiry concerning it brought repeated reports that when it did reach his desk he would withhold approval. There was no definite information.

Can Escape Responsibility.  
The governor and Mayor Thompson are still at odds politically, but it was explained that the governor may feel that signing the bill was unnecessary place responsibility on his shoulders, since he may permit the act to become a law by merely filing it with neither signature nor veto.

Much of the post-mortem discussion of the fifty-fifth assembly concerns the large number of tax raising bills passed; and some of the governor's friends already have expressed a fear that the subject might be made an issue in the next campaign.

Provisions of the Bill.  
The increase in the Chicago rate for general corporate purposes, as originally proposed, was a jump from \$1.50 to \$2.25. Under the Thompson plan of increasing the city's bonding power by raising the assessed valuation of property from the present one-half of the full valuation to 100 per cent of the full valuation, the legislature cut all tax rates in half in order that the amount of current revenue produced might remain the same as now.

Because of that, the proposed Chicago corporate rate, as it will be presented to the governor, will be \$1.12½ instead of \$2.25, but will still produce \$1.50 per cent revenue. The bill will reach him this week. He will have ten days in which to consider it. Ninety of the 120 bills Small signed today were those cutting past rates in two or adjusting newly adopted rates to the new basis for fixing assessed valuation—merely technical adjustments.

Signs Anti-Mosquito Bill.  
Of the other bills signed one was Senator Arthur A. Huebner's bill authorizing the establishment of mosquito abatement districts. Another, as the naval reserve bill, changes the name of that organization to "Illinois naval militia" and raises the scale of pay for all grades \$2 a day.

Other bills approved were the following:  
S. B. 306 (Hughes)—Authorizing municipalities to contract for water supply.  
S. B. 352 (Mark)—Authorizing railroads to develop air rights over rights of way.  
S. B. 578 (Smith)—Appropriating \$1,500,000 for flood reconstruction work.  
H. B. 44 (Kasserman)—Reducing period for legal notice by publication to three weeks.  
H. B. 551 and 553 (McCarthy)—Requiring examination and licensing of certified public accountants.

HELD FOR FOSTER AS OFFICER.  
John Smith, 29 years old, 1820 Ogden avenue, was held in the federal grand jury yesterday on charges of posing as a civil service examiner and selling jobs to girls and women.

## JOHNSTON AGAIN ELECTED LEADER OF BROTHERHOOD

Cleveland, O., July 7.—(AP)—Alvan Johnston, grand chief engineer of the Brotherhood of Locomotive Engineers and the senior officer of the brotherhood under a reorganization plan, was unanimously re-elected for a term of six years at the triennial convention here tonight.

Johnston, once a call boy and engine wiper on the Great Northern railway, rose to be Great Northern chairman in the brotherhood organization and was named grand chief engineer in 1925.

The convention's action tonight automatically abolished the offices of president, first and second vice president, secretary-treasurer.

William B. Prenter, 72, who had succeeded to the presidency on the death of the late Warren S. Stone, was relieved of all executive capacity and full control vested in Johnston.

## FOUR GIVEN CELL TERMS IN SIPHON WHISKY ROBBERY

"These men were doing humanity a service in getting into circulation genuine whisky," Attorney Benjamin Epstein told Federal Judge George A. Carpenter yesterday when Klondike O'Donnell, Fur Sammons, John Barry and James Driscoll pleaded guilty to the siphon robbery of the Morgan Bros. bonded whisky warehouse at 123 Norton street. The four were sentenced to eighteen months each in the federal penitentiary at Leavenworth and fined \$1,500 apiece.

They were arrested by agents of the special intelligence unit of the internal revenue department and police after a gun battle on March 5. Sammons was at one time under sentence of death for murder; O'Donnell was arrested as a suspect in the McGowan killing; and Barry was convicted with Big Tim Murphy of participation in the Dearborn station mail robbery.

## LIQUOR INSANITY CASES NUMEROUS AS IN WET ERA

Madison, Wis., July 7.—(Special.)—Cases of alcoholic insanity in Wisconsin are about as numerous as they were in the days before prohibition, but cases of delirium tremens have become scarce, and Dr. Adin Sherman, superintendent of the Northern Hospital for the Insane, believes that the absence of the latter disease is due to the failure of liquor addicts to get a steady enough supply to bring on this malady.

The records of both hospitals show that during the last twelve years cases of alcoholic insanity have averaged around ten per cent of all the patients admitted at the institutions.

"The number of alcoholics admitted has again almost reached that of the pre-prohibition days as the statistical tables of causes will indicate," Dr. Sherman, in his official report, declares.

## LAKE MICHIGAN LEVEL RISES IN JUNE, U. S. FINDS

Higher than Year Ago,  
Survey Reveals.

Figures based on the monthly report of the United States lake survey bureau issued yesterday show that during June Lake Michigan gained 185,451,345,627.000 gallons.

The level of Lakes Michigan and Huron rose .25 foot from May 31 to June 30, according to the government report. This increase is 25 per cent above normal for the season.

Higher than Year Ago.  
Both lakes were 1.02 feet higher than the June stage a year ago and only .58 foot below the average stage of June for the last ten years. A similar rise for July is predicted by the lake survey bureau.

Using the figures given in the bureau's report, H. P. Ramey, assistant chief engineer for the Chicago sanitary district, yesterday drew a few conclusions.

"The area of Lake Michigan is 624,476,160.000 square feet," said Mr. Ramey, after covering two large sheets of paper with figures. A rise of .25 foot in the lake level means an increase in volume of 151,098,086,400 cubic feet. There are 7.48 gallons in one cubic foot.

Effect on Sewage Canal.  
"The Chicago sanitary district takes \$500 cubic feet of water per second from the lake to carry its sewage down the drainage canal. At that rate it would take eight months for the canal to exhaust the June surplus, even if no more water should enter the lake from rainfall or streams during that period."

Reports from the other lakes show that Lake Superior gained .37 foot, Lake Erie .25 foot, and Lake Ontario .16 foot during June.

Two Little Girls Play  
with Matches; Both Dead

Two little girls died yesterday as a result of burns received while playing with matches. Adeline Vidito, 5, set fire to her clothing in her home at 2738 North California avenue. She died at the Grant hospital. Gladys Galich, 3, started to light a bonfire in the back yard of her home at 10461 Mackinac avenue. Her clothing ignited and she died from the burns in the South Chicago hospital.

RESORTS AND HOTELS  
MINNESOTA.

## MINNESOTA ARROWHEAD COUNTRY

THIS Arrowhead Country is well known to the tourist who has been to the north woods of Minnesota. Leave today for yesterday—where the giant trees are mirrored in quiet lakes—where moose and deer still come down to drink—and an Indian will lead you down the trail on silent feet to guide you. Out in the sunny open spaces by day—and sleep in the cool and spicy shelter of the pines by night. Hotels or cottages at your convenience—or camp in the open under the stars. Leave Chicago daily at 5:40 p. m.

## BAN JOHNSON OFF FOR N. Y.; DENIES HE WILL QUIT

League Magnates Meet Today.

(Continued from first sport page.)

In the clash among Ty Cobb, Al Simmons and Umpire Ormsby in Philadelphia is known to be a source of great satisfaction to Mr. Johnson. In discussing the suspension and firing of the two players Mr. Johnson said several days ago: "Didn't I give those fellows a fine dressing down when I tossed my ruling. I tossed them good and let Cobb, who is playing his last season, know that umpires still are supreme on American league playing fields."

Mr. Johnson also admitted at that time that he had participated in negotiations through which Mrs. James Dunn hoped to dispose of her interests in the Cleveland club. It was explained that Mrs. Dunn had asked more than the appraised value of the property and Mr. Johnson was in hope of bringing about an equitable adjustment. Mr. Johnson expressed fear that "bad influences" would obtain control of the property.

**Blocks Frazee Deal.**  
It is said that H. H. Frazee, theatrical man charged by many with wrecking the Boston club, through the sale of valuable players, had sought to buy in the original Cleveland deal of this year and that Mr. Johnson was blocking all proposals that had a suggestion of Frazee interest.

Credence was given the reports of Mr. Johnson's possible resignation when it was recalled that recently he was disgusted with the attitude of Connie Mack on a protested game in which Catcher Grabowski of the Yankees had been ejected, precipitating a rule intricacy in which Mr. Johnson passed adversely to the Philadelphia club. He also has characterized as "a thorn in his side" the attitude of the Cleveland management in reemploying persons involved in the Cobb-Speaker scandal of last winter.

**Attorney Represents Sox.**  
Charles A. Comiskey, owner of the White Sox and long a foe of the league president, will not attend the meeting in New York nor will the club's secretary, Harry Grabner. Mr. Comiskey is resting in his northern camp and Mr. Grabner is ill at his home. The interests of the White Sox will be handled by Attorney Alfred Austrian. It was said to be the policy of the club not to take a prominent part in the session regardless of what its purpose may be. League politics is said to have become highly distasteful to all its phases to the White Sox management which is now engaged in the task of keeping its team in the first division of the American league race.

**LEAGUE HEAD 27 YEARS**  
Mr. Johnson has been president of the American league since its organization 27 years ago and his willingness to fight at every turn was considered one of the greatest factors in the success of the circuit in its original struggle against the National league. The veteran warrior always insisted

## In the WAKE of the NEWS

EARLIER CHICAGO.

**DEAR WAKE:** In 1881 B. F. Jacobs was head of the Sunday school conducted on the northeast corner of Edinah and Liberty streets in a neighborhood known as "The Patch," in which the rougher element predominated. It was difficult to preserve order or hold evening entertainments because of disturbers.

One night a dinner was given for the poorer people of the settlement. All was going well and refreshments were under way when half a dozen toughs entered. They were invited to sit at any table where they would be served. Instead they went to the long table on which rested sandwiches, meats, pies and cakes and helped themselves. Their leader seized a whole ham and began eating from it, holding it in both hands.

At this juncture Mr. Jacobs went to the man, remonstrated, and after a few words proceeded to give an evidence of muscular Christianity, ejecting him from the place single handed. Mr. Jacobs then asked the others to leave, which they did without argument. There was no further trouble.

On the ground now occupied by the Edgewater Beach hotel were the training quarters of Hackenschmidt, the wrestler, about eighteen years ago, preceding his spacio with Frank Gotch at White Sox park. There he was supposed to train in secret. In reality he was keeping from the public the fact that he had an injured knee and was not in shape to meet the American champion. His training shack was a wooden structure built close to the water's edge, so the staff could jump into the lake and cool off after workouts. Property along Sheridan road in that vicinity then was valued at about \$250 per front foot.

**This Wake Is** Harvey T. Woodruff Conducted By Help! Help!

upon ruling with an iron hand and the appointment of K. M. Landis as commissioner of baseball was from the first highly offensive to him. The smoldering resentment soon broke out into open warfare and the two figures in recent years have been avowed enemies.

**PRINTERS BOOK TRIANGLES.**  
The Union Printers are booked with the Triangles for Sunday at 3 p. m. at Wells park, Montrose and Lincoln avenues.

## BRITONS WIN IN INTERNATIONAL SENIOR GOLF

SUNNINGDALE, England, July 7. (AP)—Great Britain's senior golfers today won the three-nation triangular match, piling up 56 points, as against 23 for the United States and 19 for Canada.

The singles were disastrous for the Americans, who lost to the British and won only three. Against Canada the Americans fared better, winning six and losing seven.

The American victors against the British were C. S. Strout, who defeated Sir Harold Stiles 5 and 3; Fred S. Wheeler, who defeated Norman Boase 6 and 4; and F. C. Woodward, who defeated Capt. S. Main 5 and 3.

**JONES SHOOT A 68.**  
ST. ANDREWS, Scotland, July 7. (AP)—A sparkling round of 68 by Bobby Jones was today's feature of the morning practice for the British open golf championship which will begin next week.

The American holder of the British open crown played in a four ball match on the new course here with the Australian player R. Nettlesford as his partner against Joe Kirkwood and Len Nettlesford. Bobby's 68 included six threes. Kirkwood took a 75.

\$10

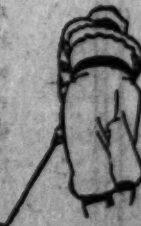

a Spalding  
Golf Shoe for the player who wants  
a Rajah Cushion Rubber Sole

THE upper is of tan calf with a brown saddle re-enforcement across the instep. The sole is the famous Rajah cushion rubber. It will not glaze nor wear smooth. Held in place by the two-unit process it cannot part company with the rest of the shoe. A special leather tip protects it from scuffing. And the shoe is leather-lined.

A true athletic shoe—one that only Spalding, with a background of 37 years as shoemakers to American athletes, could create. And only Spalding could offer for \$10.

*A. J. Spalding & Bros.*  
211 S. State St.

Spalding Lined Knickers are full-cut. Plenty of room. Big pockets. Husky belt loops. And because we sell so many they're but \$5.00 and \$5.95.

## PEANUTS AGAIN WINS EMPIRE CITY HANDICAP

### Repeats Victory of Last Season.

New York, July 7.—[Special].—Peanuts did all that was asked of him; in fact he has done just that all season. The game little son of Ambassador IV, and Agnes Sord won the nineteenth running of the Empire City handicap at the opening of the summer meeting at Yonkers this afternoon and did it easily. Moreover, he accomplished what no other horse has done—he has won it twice. He will not win another, however, as this is the last year he will carry salts, Mr. Gerry having decided to retire him at the end of the current season.

Last year Peanuts won the gallop of a mile and a quarter in 2:05 under 114 pounds. Today he repeated under 114 pounds in 2:06, doing the handicap of a strong wind, which accounted for the slower time, taking the measure of the Rosedale stable's Sanford, J. B. Humphreys' Light Carbine and James Butler's Bright Star.

Thurber, who has ridden Peanuts in all his races this season, again was in the driver's seat and brought him home a length and a half in front of Sanford, which led Light Carbine by two lengths, with Bright Star beating away off. He was the 3 to 5 favorite at post time, after opening at 7 to 10. There was considerable support for Light Carbine at 2 to 1 and 15 to 5 in view of the weight arrangement, under which the winner conceded eighteen pounds to the Humphreys 4 year old and more to the other two.

### PUBLIC FINANCING OF NEWSPAPERS SHOWS INCREASE

BY HARPER LEECH.

Far more students of journalism and publishing long since predicted the public financing of newspapers. It is no longer a vision. Public financing on a great scale has arrived. News- paper securities, held closely as a rule, until recent years, are now available to the general investing public in considerable volume; and the general uniting chains and participation in related activities such as paper manufacturing, pressmen more public financing.

Outstanding public issues of newspaper securities in several instances a result of the expansion of existing chains of papers, their further consolidation and integration, mergers of newspapers, the founding of new chains, or the passage of great newspaper properties to new owners as the result of death of former publishers and editors.

In other cases public financing is due

to the growth of the newspaper alone. In many respects the modern newspaper is analogous to the great communication utilities, which operate with public capital.

Investment manuals and prospectuses issued in recent years disclose the following list of public issues—all fairly active, any bond and investment men. All these issues are based upon prosperous properties and active management.

Important magazine issues are: Hearst Publications, Inc.—Twelve million dollars of 4½ per cent first mortgage and collateral trust bonds, serial 1926-1928. (Traffic about daily and five general magazines.)

Hearst Magazines—Ten million dollars of 6 per cent serial gold debentures of 1927, due \$1,000,000 annually, 1929 to 1938.

Chicago Evening American (Hearst)—Three million dollars of five year 6 per cent sinking fund gold notes, due April 1, 1931. This issue is to be replaced by refunding upon which the only funded obligation of the property will be \$5,000,000 (twelve year 4 per cent sinking fund debenture gold bonds due July 1, 1933).

The New York Evening Journal (Hearst)—Has a public issue outstanding of \$15,000,000 first and collateral 4½ per cent due 1935-1937.

Other public issues include Pittsburgh Press (Scraps

## WHEAT ADVANCES ON RUST REPORT; CORN ALSO GAINS

BY CHARLES MICHAELS.

Black rust in wheat is being found in either the red or black stage from Winnipeg south to Kentucky and Tennessee. Buying of futures based on the rust reports was largely responsible for a higher level of values, and the close was 1 1/4% higher with July, \$1.45 1/2 to \$1.46 1/2; September, \$1.44 1/2 to \$1.45 1/2, and December, \$1.44 1/2 to \$1.45 1/2. R. O. Cromwell, the Lamson Bros. & Co. crop observer found a trace of rust in the stage from Winnipeg south to Grand Forks, N. D., in all early seeded fields, and said that considering the stage of plant this is the earliest rust appearance in 18 years, but considering calendar date the appearance is normal. Conditions as he found them were ideal for rust development with normal temperatures.

Corn was affected by the strength in wheat and by aggressive buying by local professionals and closed 1/16% higher, 17th July leading. Letter was 97 1/2c the last, with September \$1.05 1/4 to \$1.06 1/4 and December \$1.04 1/4 to \$1.05 1/4. Oats were unchanged to 1/16c higher, with July 45c, September 46c, and December 46c. Rye closed 1/16c higher, with July \$1.10 1/2 to \$1.11 1/2 and September \$1.01 to \$1.02.

Export demand better. Winnipeg wheat showed pronounced strength, with July leading, and closed 1/16c higher, and the upturn in that market had considerable influence here. Leading local professionals were disposed to buy freely on the rust reports, and also on B. W. Snow's comment telling of damage by black rust in parts of the winter wheat belt which is being reflected in reduced yields. There was no material pressure, and southwestern hedging was absent.

The seaboard reported a better demand for cash wheat, with sales of around 500,000 bu in all positions, largely Manitoba. At the same time, St. Louis sold some hard winter for direct export via the Gulf. Liverpool closed 1/16c higher and Buenos Aires 1/16c higher.

Rains Help Corn Crop.

Rains in parts of Illinois and Iowa were regarded as beneficial for the new corn crop and led to selling of futures early, but local professionals became good buyers and caused a bulge of 1/16c from the low point, with the finish within a fraction of the top. Cash demand remains slow. Forecast was for generally fair and warmer weather. July showed the most strength and closed 1/16c under September, against 1/16c on Wednesday. Cash houses and shorts were on the buying side of oats, with the July showing the most strength. The northwest was the best seller. Weather conditions over part of the belt were rather favorable, but there were increasing complaints regarding rust.

Shorts were active buyers of rye and, despite northwestern hedging sales, the close was at the top. Private reports claimed that the new crop was not filling as well as expected. Export demand was slow.

### PRIMARY GRAIN MOVEMENT

	Wheat	Corn	Oats
Receipts—			
Thursday	1,401,000	888,000	287,000
Last wk.	1,238,000	748,000	308,000
Last year	1,040,000	536,000	208,000
Shipments—			
Thursday	758,000	337,000	339,000
Last wk.	801,000	419,000	324,000
Last year	870,000	437,000	358,000
1925	872,000	384,000	1018,000

## CASH GRAIN N.E.W.'S

Foreign demand for cash wheat showed improvement with sales of 500,000 to 600,000 bu in all positions, largely Manitoba. St. Louis American sold hard winter above via the Gulf on direct cables.

Chicago handlers sold 101,000 bu corn; 84,000 bu oats, and 5,000 bu barley. The domestic trade, with 50,000 bu oats to go to stock, delivered on July contracts very 20,000 bu wheat; 157,000 bu corn; 120,000 bu oats, and 65,000 bu rye.

No change was made in the local basis on spot wheat with No 2 red, 1/16c over No 3 red and hard, 1c over to be under, and No 3 hard 50c over July. At Kansas City milling demand was good with the basis steady to 1c higher.

Cash corn sold fairly with the basis steady to 1c higher. No 2 grades brought 50c under, No 3 grades 48 1/2c under; No 4 grades, 46 1/2c under; No 5 grades, 44 1/2c under; and No 6 grades, 42 1/2c under the July. Spot prices in outside markets were unchanged to 1/16c higher.

Basis on cash oats was unchanged to 1/16c higher with No 2 white 20c over and No 3 white 10c over to be under.

Official receipts of grain at Chicago Thursday: Wheat, 72 cars; corn, 1 car; oats, 18 cars; rye, 1 car; barley, 2 cars.

Range of cash grain prices in leading markets follows:

WHEAT—Chicago, Kansas City, St. Louis.

## Mrs. J. T. Bowen and Mrs. John C. Caldwell to Start Abroad Soon

BY NANCY R.

Despite the fact that the Lake Forest horse show holds the spotlight today and tomorrow, there are several other jottings of news concerning the activities of various members of our smart and always active beau monde.

Mrs. Joseph T. Bowen and Mrs. John C. Caldwell, two of our most attractive young women, who have proven such amiable traveling companions that they're always planning to go together, are sailing on the *Scythia* for England, where they will visit Mrs. Bowen's mother-in-law and sister, Lieut. Commander and Mrs. Charles D. Burney. They spent a pleasant month with them last summer, and now they're to pay another call there, and then Mrs. Caldwell will go to motor with them through Germany and Switzerland. Mrs. Caldwell left Chicago yesterday, to have a few days in Troy before sailing, and will be joined in New York early next week by Mrs. Bowen.

The Warren Ripples, their baby, and Mrs. Ripples' mother, Mrs. Lockwood Henshaw, also started east yesterday on the *Century*, on the first leg of their European journey. They expect to be away about two months.

Quite the other side of the world is looking to Mrs. W. G. Hibbard this year for her annual summer weather forecasting. About the 29th she will sail for Honolulu for a visit of a fortnight or so, returning to her Wisconsin abode late in August or early in September.

Mr. and Mrs. Joseph Adams are in town again for a breathing spell, after their interesting ramble through Spain and other European countries. At present they have no definite plans as to another trip, but it's safe to say that they'll be off again, before many moons, to some remote and alluring spot.

## Day's News in Society

The Noble R. Judahs are to have the Milwaukee group of horse show fans as guests at the big buffet luncheon they are to give today for the judges, exhibitors, and riders in the Lake Forest show to take place this afternoon and tomorrow at Onwentaia. Mr. and Mrs. Ludington Patton, the A. D. Pattons, Mr. and Mrs. Armin W. Schindler, Mr. and Mrs. C. B. Goodrich, Mr. and Mrs. John A. McLeod Jr., Mr. and Mrs. Clyde B. Fuller, and Mr. and Mrs. John Cuddeback are included in the crowd coming down to the event.

Archibald, Richard Dabbs, M. F. H. of the Groton Hunt, who is to be the other hunter judge, and Mrs. Danielson, are to visit the William McCormick Blairs.

The summer colony at Lake Geneva is interested in the annual rummage sale for the benefit of Holiday Home, to take place tomorrow all day at Herkimer hall. Mrs. Augustus K. Maxwell is chairman of the committee in charge of the sale. Her assistants include Mrs. Daniel Peterson, Mrs. Margaret Healy, Mrs. Frank M. Porter, Mrs. Walden W. Shaw, Richard Dabbs, M. F. H. of the Groton Hunt, and Mrs. Frederick H. Bartlett.

The first of the summer series of Sunday musicals is to be given at the Bohemian club this Sunday. Mrs. Dwight C. Orcutt of Hubbard Woods is in charge of the programs. Invitations have been issued by Mr. and Mrs. Solomon A. Smith of Lake Forest for the marriage of their daughter, Mari Shumway, to Scott Brownell, on Saturday afternoon, July 23, at 6:30 o'clock at the First Presbyterian church in Lake Forest. A reception at the Smith residence is to follow the service.

Mr. and Mrs. William H. Colvin of 1181 Forest avenue, Evanston, announce the marriage on Wednesday evening of their daughter, Jessica Burt, to Lennart Palm of New York City, son of Mr. and Mrs. Henrik Palm of Stockholm, Sweden.

Mr. and Mrs. Theodore Brantano have arrived from Austria-Hungary and are domiciled at the Hotel Belmont. Mr. and Mrs. John Stuart Connelley Jr. of 1815 Astor street are being congratulated on the birth of a daughter, on Tuesday, at the Michael Reese hospital. Mrs. Connelley was Miss Catherine Roehm before her marriage several years ago.

## London's "Most Expert Bridesmaid" to Be Wed

(Chicago Tribune Press Service.) LONDON, July 7.—Lady Mary Beatrice Thynne, 24 years old, youngest daughter of the marquis of Bath, a noted society beauty and also referred to as the world's most experienced bridesmaid, is engaged to marry Baron Northumbro, a wealthy young peer. Lady Mary is a friend of Princess Mary and acted as one of her eight bridesmaids five years ago.

## Something Different for Breakfast?

FOR better days, try a change in your breakfast diet. Have a cereal unlike any other you have ever tasted.

Toasty grains, steam puffed to 8 times their normal size, the grains are richly toasted. They taste like fresh toast and supply the vital energy elements of rich wheat.

Tastes different, looks different, is different from other cereal foods—proves food that's "good" for you can be wonderfully delicious, too.

Serve tomorrow. Watch the breakfast smiles that come. You'll be thankful for the suggestion.

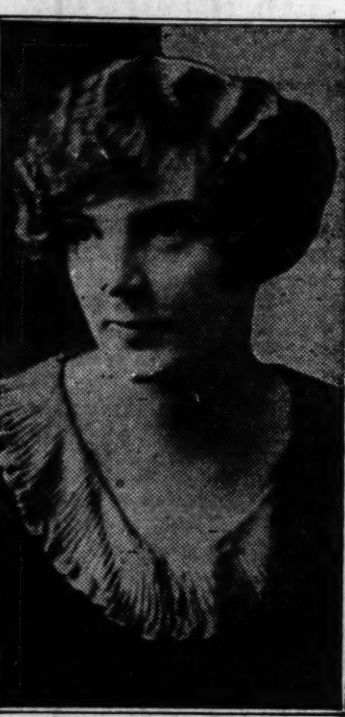

## Quaker Puffed Wheat

The most unique cereal known

## BETROTHED

MISS GRACE ANN BOWEN.

Mr. and Mrs. John Bowen of 1745 East 67th street announce the engagement of their daughter, Grace Ann, to Chester Andrews Wright, son of Mr. and Mrs. Charles C. Wright of 6430 Kimbark avenue.

## Matilda Houghton Becomes Bride in Historic Chapel

(Chicago Tribune Press Service.)

LONDON, July 7.—The moldering Gothic arches of the ancient St. Margaret's in Westminster were the impressive background for a beautiful ceremony this afternoon when Matilda Houghton and Chandler Parsons Anderson Jr. spoke the marriage vows before the cream of the American colony in London, as well as scores of high diplomats.

Long before 2:30, the hour of the ceremony, the church of St. Margaret's, as well as the adjoining Westminster Abbey, were jammed with photographers and sightseers, including an army of American tourists, who interrupted their trek through the abbey to see the smart bridal party.

The ten bridesmaids presented a flow of color as they preceded the bride, in summery green frocks, picture hats and wild flower bouquets, each escorted by one of the ten ushers. The bride, who followed, was in a picture in an ivory satin gown, old rose point lace, trained headpiece, with orange blossoms adorning the veil and slippers.

At 2 o'clock sharp the bells of St. Margaret's set up a clangor, frightening flocks of pigeons from the belfry and announcing the end of the ceremony. The bridal couple departed immediately for a motor tour of England before sailing for their New York residence.

## Church Leaders to Be Here Sunday for Public Novena

The two highest dignitaries of the Carmelite order of Roman Catholics will be in Chicago Sunday to attend the opening of the solemn public novena in honor of the Little Flower and of Our Lady of Mount Carmel, to be held in the national shrine of the Little Flower, Sixty-fourth street and Woodlawn avenue.

The Very Rev. Elias P. Magennis, superior general of the Carmelite order, will be here from Rome. Arriving tomorrow is the Very Rev. Hilary J. Dowdell, superior general of the Carmelite order, who before his election to this high office was in Chicago for 25 years. He acted as president of St. Cyril college and Mount Carmel High school.

## PATTERNS BY CLOTILDE

(Registered U. S. Patent Office.)

WOMAN'S OR MISS' DRESS. This straight line dress with collarless neck and three-quarter length sleeves should prove a favorite for summer wear. The two slashes through which a tie is run and the patch pockets add to its appearance.

The pattern, \$25, comes in sizes 16, 18 and 20 years, and 24, 26, 32, 40, 42, 44, and 46 inches bust measure. Size 36 requires 3 1/2 yards of 36 inch material.

Order Blank for Clotilde Patterns.

CLOTILDE PATTERNS, CHICAGO TRIBUNE, 247 PARK AVENUE, NEW YORK CITY.

Indicate Size, Name, Address and the Clotilde pattern listed below: Pattern number, Size, Price

Name, Address, City, State

How to Order Clotilde Patterns. Write your name and address plainly on dotted lines, giving number and size of each pattern as you want. Enclose 10 cents in stamps or coin (coin preferred). Wrap it carefully for each number, and address your order to Clotilde Patterns, Chicago Tribune, 247 Park Avenue, New York City.

Write your name and address plainly on dotted lines, giving number and size of each pattern as you want. Enclose 10 cents in stamps or coin (coin preferred). Wrap it carefully for each number, and address your order to Clotilde Patterns, Chicago Tribune, 247 Park Avenue, New York City.

## Braid Adds Chic to Summer Frocks

by Corinne Lowe

NEW YORK.—(Special Correspondence.)—There is a great deal of both upbraiding and downbraiding this season.

The former is concerned with all these various types of sandals which are made of braided leather thongs. These were sponsored by almost every pair of fashionable feet that trod the Riviera's past season and they are shown by all of our shops as one of the resort specialties. And, of course, too, the footlings have not been turned completely off from these other braided models.

As to the upbraiding part of our thesis, we find this manifested on all types of frocks and wraps. Braid is used on many of the midseason petite robes of crepe to effect those triangular and diagonal effects that are so much a part of the summer pageant of fashion, and we encounter the same trick performing first aid services to a number of sports clothes in both silk and cotton. Also linen!

There is undoubtedly a great linen renaissance this summer, and it includes not only the ubiquitous separate coats of hand-blocked linen, but also many adorable frocks of both one piece and two piece inspiration. Hemstitching is still the favorite way of making such frocks look exclusive and costly, but the prestige of this handwork does not exclude other valuable ideas, such as embroidery and braid.

That braid can succeed in making your simpler linen frock look absolutely individual is the lesson to be gathered from today's sketch. Here we have a linen frock in robin's egg blue which is set off with white braid. This is applied effectively to side pockets and square pockets and a yoke that starts from the shoulders in front to function across the back. The edges of the band at the neck line are bound in white and also in white is the buckle of the self fabric belt.

Order Corinne Lowe Designs by marking a circle on picture, around the number, and another circle around the size of each pattern wanted.

# W. L. Hodgkins, Wealthy Chicagoan, Drowns in Georgian Bay After Helping to Save Society Girls' Lives

**SOCIETY GIRLS SAVE LIVES BY SWIMMING.** Emily Otis, 1415 Astor street (left), and Winifred B. Smith, 1415 Lake Shore drive, who escaped from burning boat. (Story on page 3.)

**MILLIONAIRE DROWNS.** William L. Hodgkins, who lost life in Georgian bay disaster. (Story on page 3.)

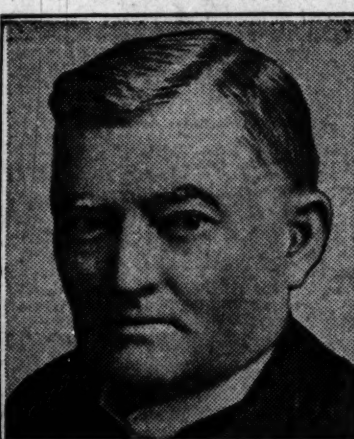

**WANTS IN VAIN.** Mrs. William L. Hodgkins, to whose home burned boat was bound.

**GANG LEADER CENTER OF ATTRACTION AS HE SAUNTERS TO TRIAL.** Charles Birger (center) on his way to courthouse at Benton, Ill. To one side is Sheriff Pritchard of Franklin county and in the rear is his deputy, Jesse Wheat. (Story on page 10.)

**ENDS ALIMONY FIGHT.** Mrs. Margaret Melter, first wife of Dr. V. P. Cooley, admits second marriage. (Story on page 11.)

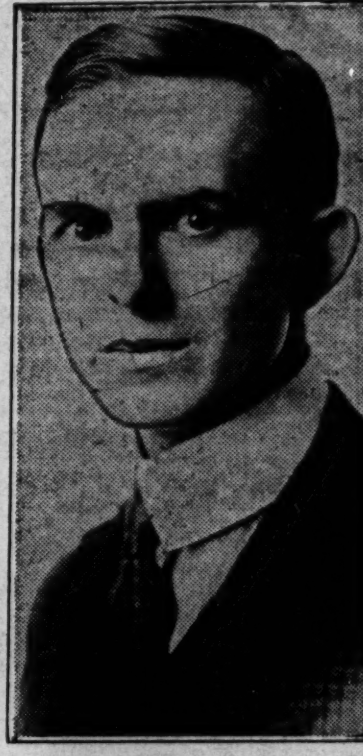

**SOCIETY WOMAN ENGAGED TO ACTOR NOW HERE.** Mrs. Aimee Raich Hastings of San Francisco, who will become wife of Richard Bennett next November. (Story on page 2.)

**NEW LEADER.** John Garner, Texas, who is expected to direct Democrats in congress.

**DAUGHTER OF SLAIN MAYOR TO TESTIFY AGAINST BIRGER.** Left to right: Mrs. Jo Adams, widow of mayor of West City; Arian Adams, her daughter, and Clara Netherton in courthouse at Benton, Ill., where southern Illinois gangster is on trial. (Story on page 10.)

**WRITER DIES.** Keith Preston, author and column conductor, passes away in Evanston hospital. (Story on page 28.)

**DOUBLE FUNERAL.** Winifred Buckley, killed on way to aid dying mother, to be buried with her.

**REGIMENT HE ONCE COMMANDED HONORS VETERAN ON 86TH BIRTHDAY.** Field officers and colors of 132d infantry at home of Brig. Gen. James E. Stuart at 3144 West Monroe street. At Gen. Stuart's right is Col. Fred E. Rand, present commander of the regiment, while to the left of Mrs. Stuart is Lieut. Col. Charles H. Davis. (Story on page 25.)

**CROWDS WATCH FLAGPOLE SITTER ON EIGHTH DAY OF ORDEAL.** Scene at Clark and Madison streets, where throng gathered to see if Joe Powers had gone safely through Wednesday night's storm on his lofty perch on the Hotel Morrison.

**THE WORLD'S LARGEST VOLCANO AGAIN IN ERUPTION.** Kilanea on the island of Hawaii in action. This picture was taken in 1924, since when the huge fire pit has been empty until the eruption which started yesterday. (Story on page 1.)

**METHODISTS TO OPEN 65TH ANNUAL DES PLAINES CAMP MEETING TODAY.** Mrs. Hattie Boone of Edison Park, who is in charge of hotel (left), and Mrs. W. G. Cooper, Oak Park, president of women's auxiliary, working on curtain for new dining hall. (Story on page 25.)

**BURNING NATURAL GAS DISCOVERED BY DIGGING WELL NEAR ELGIN.** Workmen sinking a well for water near Elgin yesterday struck a pocket of natural gas at a depth of 151 feet. The picture shows the gas being burned from a pipe.

M  
BRITISH A  
U. S. FOR  
NAVAL EQ  
Geneva Par  
More Near  
BY HENRY V  
(Copyright: 1927: By The  
GENEVA, July 8.—  
determined to maintain  
priority in big cruise  
United States and there  
rule the waves, sudden  
greivous tonight.  
When First Lord of  
Walter C. Bridgeman  
statement designed to  
Britain's position regard  
naval strength with the  
the tripartite naval con  
by President Coolidge  
to be sailing right tow  
Mr. Bridgeman insisted  
never had wanted big  
time, but had them the  
America, and if England  
large now it is not her  
forced to build to the  
mous tonnage by the  
struction programs of the  
The American deleg  
starred by the British  
The royal predilection  
ence was near a solution  
lack over cruiser tonna  
made following a meetin  
delegates, seemed to va  
British Demand Plans  
A plenary session was  
the British for Monday,  
miralty's spokesman  
stampede public opinion  
American representative  
their proposals on cr  
grounds of economy to  
and a real reduction o  
An examination of the  
the case by American ex  
however, that no saving  
by the British proposals  
they merely make the U  
favor to the British for  
to come.  
The Americans welcom  
session Monday as an  
clear the atmosphere an  
the underlying motives  
ing tactics which threa  
the proceedings.  
Yankees Ready to  
We certainly are rea  
public, and have plenty  
an American delegate  
move must come from  
cunning the backbone of  
cruisers. We cannot go  
the compromise offer of  
without making a mock  
ament."  
The English delegates  
they entertain no intent  
their estimates of 550,0  
tons of cruisers, which  
absolutely the minimum  
defense of the empire.  
Japan Offers Another  
The Japanese this eve  
statement in which they  
ing the destroyer and cr  
at from 450,000 to 550,000  
United States plan sugge  
defining how much shall  
either category. On thi  
stated, Japan would requ  
100,000 tons, or an inc  
ratio from 5-53 to 3-3-4  
tion of nearly 7 per cent.  
"We also favor reduci  
mum displacement of uni  
gories, and believe large  
be limited to 8,000 ton  
Saburi of the Japanese  
The technical experts  
powers agree that 8,000  
could carry eight inch gu  
few maintaining these li  
weapons for big cruisers.  
Thus, the Japanese  
Anglo-American position  
supporting the English  
size and backing Americ  
on his enough weapons to  
verted merchantmen.  
Calls Big Cruisers "G  
Mr. Bridgeman, in outl  
pire's special requirement  
stressed the pernicious ef  
ing 10,000 ton cruisers,  
offensive and aggressive  
England's pet plan to lim  
7,500 tons would provide  
"are merely defensive c  
police."  
"Is Great Britain rea  
all its cruisers over 7,500  
other two powers do like  
The correspondent as  
"What is that?" replie  
man, anxious and unable  
cern, as the English jour  
with laughter at such a  
question.  
The interrogation was  
"U. S. Has None to  
"That is a fine prop  
those who have none to  
(Continued on page 2.)
